Description: Jane Carter Solution Noruish & Shine is a magic product. Because it is all natural, it never leaves your hair heavy or greasy. It contains shea butter and vitamins to restore your hair. This product can be used on hair or skin as a "body butter". It can be used as a hair dress on dry hair to add shine. To tame curly dry hair, apply to hair wet.

Pros:	great shine!!
Cons:	none

This is the Jane Carters version of the Hair Nourishing cream without the added water. It is strictly the combination of butters. So its a littele heavier than the Hair Nourishing Cream. I use this to seal in my moisture. This is the last and final step of my hair regimen. Once all is said and done, a tiny dime-sized portion puts a shine on my head like you wouldn't believe. I usually spend a few minutes in front of the mirror just admiring the shine!! These butters are quite awesome! This is really really good stuff in this jar. 😊

Pros:	It's ingredients and the scent. So good! Multi purpose; can be used on hair and skin
Cons:	It's a little pricey.

I love, love, and love this product. I've gone through about 5-6 jars so far. I use it to moisturize my skin and as a daily moisturizer for my hair. The scent is very refreshing. Take this along when you travel to reduce the number of personal products you have to take along.

I tried this product a few months ago and LOVE IT! The product is very light and produces a brilliant shine. A small amount is all you need and the smell is great. I only have one issue with the product. It can become grainy after a while, which is easily remedied by rubbing in your palms or putting in the microwave for a minute or so.

Worth the money!

Pros:	Very light and wonderful smell
Cons:	Price - \$20.00/jar - can get "grainy"

Please see my previous review. Fantastic product. Great sheen, light texture, can be used as a body butter.

Pros:	light, filled with vitamins
Cons:	none

I was in whole foods when I noticed the Nourish and Shine Butter was on sale. Knowing that people in the LHCF had raved about this product I was eager to go home and try it. If you live near a Whole Foods or Vitamin Shoppe, these products are often on sale so you may be able to save a few dollars as it is quite pricey. My hair and scalp feel very nourished right now. I can already tell I'm going to finish the jar and I've only been using it for two weeks. Thus far, I am very happy with the results.

Has anyone tired any of the butters from www.whatissuitetabu.com? I use the Green Tea butter for a hair moisturizer and scent when I'm on the go. January Noir, I tootally understadn the need to reduce products that I take with me while on travel :-)

Pros:	The shine & scent
Cons:	The price (but it lasts forever)

This product is great for shine and moisture. You can use it on hair and skin. It gives great shine to the hair without weighing it down. And it smells heavenly. It is a bit pricey but if you're using it mostly on your hair for shine it'll last a very long time.

Pros:	gives a brilliant shine, seals in moisture well, smells nice, lasts a long time
Cons:	a little pricey

I love this product! It is great for sealing in moisture. Sometimes I moisturize with the revitalizing leave-in, then seal with the nourish and shine and my hair looks and feels great.

Pros:

Cons:

I just bought this product from my local Black owned beauty supply. I was \$21 smackeroos, so it better be worth. The owner with natural hair uses it herself and raved about when I came into the store today looking for emergency moisturizer for my hair. Now see my hair was as dry as Antarctica, when I put this in one section of my hair so far, my mother who always talks about how dry my hair looks said my hair feels as soft as a babies. I have mostly 4b hair. So Yay! I hope its effect lasts at least 24 hours.

Pros: Only a little is needed to acheive great results

Cons:

I like this product because it really is nourishing. I have fine hair, but I have no problem w/ the Nourish & Shine weighing my hair down because I only use a little. I do melt in the microwave so that it's easier to spread.

Remember--a little goes a long way.
